## REASONS FOR ALLOWANCE

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Chang et al., U.S. 6,399,546 discloses a carrier fluid's viscosity being altered by triggers intrinsic to the environment into which the fluid is placed.

Rose et al., U.S. 4,735,731 discloses methods of breaking viscoelastic surfactant.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest all the claimed subject matter including the carrier fluid being insensitive to oil-based mud for a time sufficient to place the gravel, and the carrier fluid being capable of breaking in the presence of produced fluid.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
